

Provisional Application Cover Sheet — Template

(Use this to prepare the USPTO Provisional Application Cover Sheet (PACS). Fill in each field and convert to PDF for upload.)

Title of Invention: System and Method for a Privacy-Aware Memorial Social Platform with Live Rooms, Adaptive Persistence, and Moderation Workflows

Inventor(s):

1. Jashaad Gulifield
2. Christine Grant

Correspondence Address (for USPTO notices): [Name or Company] [Street Address] [City, State/Province, Postal Code] [Country] [Email] [Phone]

Applicant/Assignee (if different from inventors): [Assignee Name or leave blank if none]

Small Entity Status (select if eligible): ☐ Small entity ☐ Micro entity ☐ None

Customer Number (if applicable): [optional]

Attorney/Agent (if using one): [Name] [Registration Number] [Contact email]

Application Type: Provisional Application for Patent

Estimated attachments to upload with the PACS:

- Provisional description (PROVISIONAL_DRAFT.md -> convert to PDF)
- Drawings (PDF) — optional, but include simple diagrams if available
- Inventor assignment (INVENTOR_ASSIGNMENT.md -> convert to PDF)
- Any additional exhibits (e.g., example data flows)

Filing party signature (print and sign after conversion to PDF)

Signature: _____ Name: _____

_____ Date: _____

Notes:

- The USPTO has a web-based Patent Center for filing provisional applications. You can upload the provisional description and drawings as PDFs.
- If you want me to produce a single package (PDFs + ZIP), I can prepare the files and give instructions for conversion; you will need to provide addresses and sign the cover sheet and assignment where required.
